# BLANCO UNIT À LA CARTE COLLECTION 2022

Seamless combinations to create your perfect kitchen hub.

 **GERMANY**  
SINCE 1925

**BLANCO UNIT**  
drink. prep. clean.

Drink. Prep. Clean. Everything you need, all in one place.  
Sink, tap, integrated organisation and waste management seamlessly  
combined in the BLANCO UNIT for a stunning, creative kitchen hub  
at the heart of your home. **Discover more at [blanco.co.uk](https://blanco.co.uk)**

Welcome to the BLANCO UNIT à la Carte collection. We spend more than half of our time in the kitchen using the sink, tap and waste area. So, BLANCO focuses on improving how you can use this space. Adding intelligent features, introducing new designs and innovative materials to make kitchen life easier, everyday.

With the BLANCO UNIT it all flows naturally. Sinks, taps and bins are the most commonly used items in the kitchen. However, they are rarely given the consideration during planning that they deserve. This collection combines our premium sinks with a BLANCO tap included in the price. You can choose to upgrade your tap, add an integrated bin or in-cabinet organisational system at upgrade prices, only available in this brochure, when purchased in combination with a sink. You can even add one of our innovative NEW Food Waste Disposers and create a UNIT that suits both your style and your lifestyle.

# WHAT IS THE BLANCO UNIT?

Life and lifestyle all in one place.

BLANCO are the experts in the busiest area of the kitchen. Your choice of our sinks, taps, integrated organisation, accessories and drinking water systems can combine in one seamless BLANCO UNIT, making a big difference to your lifestyle by simplifying everyday life in your kitchen.

A BLANCO UNIT will save you effort and time, letting you get on with the more important things in life.

You are sure to have a clear idea of how your kitchen could be improved and what features would make your day-to-day life that much easier and more enjoyable.

At BLANCO, we make it our mission. Combining premium quality, first-class design and carefully considered functionality. Always with you in mind.

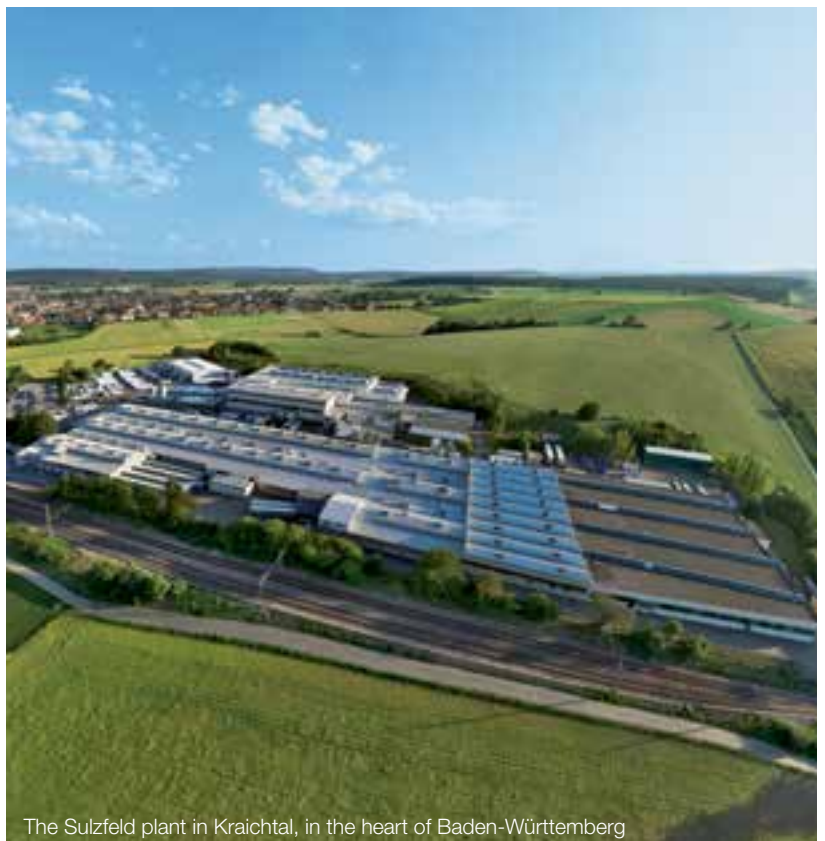

As a German company, founded nearly a century ago, we are among the world's leading manufacturers of kitchen taps, sinks, and integrated waste and organisation systems.

We are passionate about the heart of your kitchen, the sink-space is the hub, where tasks need to run smoothly and efficiently. It's the most important place in the kitchen, and our many years of experience in cutting-edge technology can make it even better.

2022 marks the 30th year of BLANCO in the UK. BLANCO sinks, taps and accessories, have built a reputation for being high-quality products with homeowners and kitchen retailers across Great Britain. The UK remains a crucial market for the now global BLANCO brand, so the trend-setting UK consumers continue to drive our designs and innovations globally.

The Sulzfeld plant in Kraichtal, in the heart of Baden-Württemberg

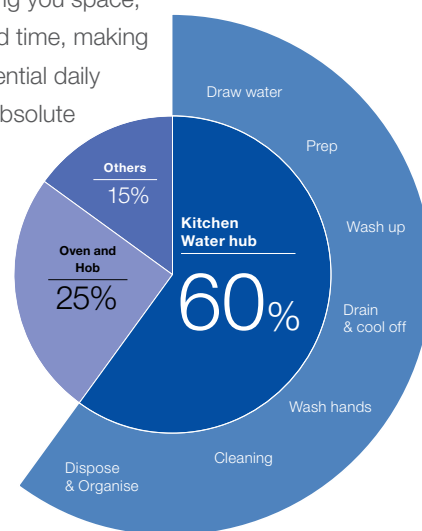

## A PERFECT COMBINATION.

Did you know we spend more than half of our time in the kitchen at the sink? After all, the sink area is where we fill our glasses, prepare food, rinse dishes, store cleaning products and separate the recycling.

So, it's important to ensure that things happen quickly and efficiently here. Ideally you wouldn't want to use different areas of your kitchen for different tasks. Having everything within easy reach and working together smoothly is key. Daily cooking, preparation and cleaning become simply easy, saving you space, energy and time, making those essential daily tasks an absolute breeze.

## DRINK. PREP. CLEAN.

Create the perfect place to drink, prep and clean, that fits your style and your lifestyle. Day-to-day drink making, food preparation and cleaning now take place at a sophisticated sink area, combining all three tasks to perfection. Vegetables are peeled, washed and off-cuts disposed in just a few simple movements. Tea made simple with a boiling water tap, cool drinks created with pure filtered water and life made easier with features including flexible or pull-out sprays.

The space under the sink, that no-go-area of chaotic, but important, storage becomes perfectly tailored with an integrated waste, in-cabinet organisation or food waste disposer.

All of this with millimetre precision, premium quality and ingenious ideas to make kitchen life easier everyday.

## THINGS TO CONSIDER:

### The size of your sink cabinet

It is essential to be aware of the cabinet width in which your sink will be installed.  
The bowl, or bowls in the case of a multi-bowl sink, will need to fit into this space.  
Each sink in this brochure will show a minimum cabinet required to house it successfully.

◀450▶

◀600▶

◀800▶

### Installation formats

#### Inset sinks

Inset sinks are installed from above into a pre-prepared hole in your worktop. It gives you the widest range of sink shapes, sizes and styles to choose from.

#### Undermount bowls

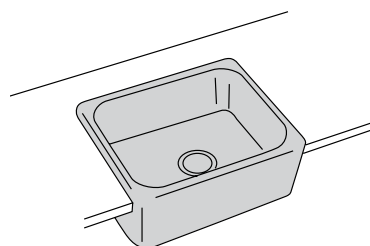

Undermount sinks are installed underneath the work surface and therefore require a solid surface worktop such as granite or wood; they are not compatible with laminate work surfaces.

#### Belfast / apron front bowls

Belfast sinks can be fitted undermount, as pictured above or inset with a slight raised edge profile as in the drawing below.

# USING THE À LA CARTE MENU

Sink and tap combinations you can build on to create your perfect BLANCO UNIT.

Having taken great care in selecting the furniture and appliances for your new kitchen, it's just as important that the sink and tap you select work for your space and your lifestyle, now and long into the future. Our á la Carte Collection lets you create your own sink and tap combination - each sink comes with a Chrome mixer tap included in the price. However, should you wish, you can upgrade your tap to another in the collection at a reduced price. The savings don't stop there though, select from a range of great value in-cabinet waste management or storage systems, at upgrade prices only available when purchased together with a sink and tap combination. You can even add our innovative new Food Waste Disposers to create your ideal BLANCO UNIT.

## 1. Choose your ideal sink

Select the sink or bowl that suits your style and lifestyle. Are you a fan of Stainless Steel, Ceramic or how about granite composite?

Silgranit is our leading composite material. Temperature resistant, scratch resistant, hygienic and available in up to eight colours - Silgranit is as strong and easy to care for as it is beautiful and tactile.

Also, consider the installation method that you need. See the 'Things to consider' information on page 6 to select a method that is right for you and your space.

### Included in the price:

CAMIA®

Fittings

## 2. Choose a tap to suit you

The CAMIA® mixer tap in chrome comes included in the price of all the sinks in the á la Carte Collection. The twin lever CAMIA® is a popular and contemporary tap choice.

If the CAMIA® isn't to your requirements, we have put together an á la Carte menu of tap upgrades (see page 60). These include our feature packed Drink Systems - an innovative collection of true boiling and filtered water taps. We also have semi-professional taps, and a wide selection of contemporary and traditional mixer taps - all available at reduced upgrade prices in a variety of colours and finishes.

## 3. The finishing touches

Turn your sink and a tap into a BLANCO UNIT, a multi-functional, creative space by adding ingenious integrated solutions from page 72.

Our range of in-cabinet waste management and organisation systems will turn that 'no-mans-land' under your sink into a super-practical space that simply works.

Don't forget our other finishing touches from colanders and caddies to food preparation boards, crockery racks, and food waste disposers. Create a space to be proud of at the heart of your kitchen.

# WHICH MATERIAL TO CHOOSE?

This guide compares the features and benefits of our sink materials.

You have your own unique vision of what makes the perfect kitchen. How you use your sink is important when deciding which material is right for you and your kitchen because each material has individual characteristics and benefits. Our range covers everything from the latest contemporary trends to classic lines, so all you have to do is choose the one that best complements your cooking style, kitchen theme and personality.

## STAINLESS STEEL

Stainless Steel differs from most materials in that it can be integrated into almost any kitchen environment. Its most important properties:

- Timeless classic aesthetics
- Does not rust
- Completely heat resistant
- Hygienic and suitable for food preparation
- Stain and acid resistant
- Easy to care for

BLANCO uses only the highest quality 18/10 Stainless Steel to meet the most exacting requirements.

## SILGRANIT®

Silgranit is a beautiful granite composite material which has been patented and developed exclusively by BLANCO.

- Available in attractive colours all with a uniform surface finish
- Superior durability and a smooth silk surface with the look and feel of natural stone
- Easier cleaning, thanks to its water repellent surface
- With Hygiene+Plus, a shield against dirt and bacteria, tests have confirmed that bacterial growth is reduced by an average of 98%
- Discover more about Silgranit at [blanco.co.uk/silgranit](https://blanco.co.uk/silgranit)

**Hygiene+Plus**

SILGRANIT® PuraDur® with the patented hygiene protection formula

## CERAMIC

Sinks made of BLANCO Ceramic create a special homely atmosphere.

Their attractive appearance and glazed surface finish blend with both traditional and modern kitchens.

Modern production methods and special manufacturing techniques together with the skills of our craftspeople ensures that our quality remains constant. Care throughout the production process helps to produce a sink which will maintain its appearance for years to come. Its most important properties:

- Easy to care for
- Food stain and acid resistant
- Colour safe
- Resistant to heat in domestic use
- Hygienic and suitable for food preparation

# SINKS AND TAPS EXPLAINED

A key to important features and considerations.

## SINKS

**Inset:** The frame of an inset sink sits on top of the work surface. These sinks are compatible with any work surface, including laminate worktops.

**Undermount:** An undermount sink is installed underneath the worktop, only compatible with solid surface worktops such as granite or solid wood.

**Belfast:** Belfast style sinks are installed either 'dropped-on' to a purpose-built cabinet or by using installation brackets.

### Inset Sink Profiles

BLANCO sinks come with a range of different profiles.

**Standard:** Edge is rolled over to meet the worktop.

**IF and IF/A:** Unique 1mm flat edge profile for inset flush installation.

**IFU:** Suitable for inset, flushmount and undermount.

## Cabinet Width

The cabinet width measurement denotes the minimum measurement (mm) which the sink bowl(s) need to fit into.

## Bowl Configuration

Select the correct sink configuration for your kitchen.

**LHB, RHB and UNI (Universal):**

Indicates whether an inset sink is available with a Left Hand Bowl (LHB) or Right Hand Bowl (RHB).

UNI (Universal) indicates an inset sink suitable for both left and right configurations.

If the sink does not have a drainer, the handing refers to the Main Bowl.

## TAPS

### Water Pressure

BLANCO has a range of taps suitable for low and high pressure systems. BLANCO considers taps

0.3 bar and below as low pressure.

### Features

**Pull-Out Spray:** Features a pull-out spray, useful for directional rinsing.

**Aerator:** Mixes air into the water to give a champagne flow. Some taps are fitted with a flow straightener.

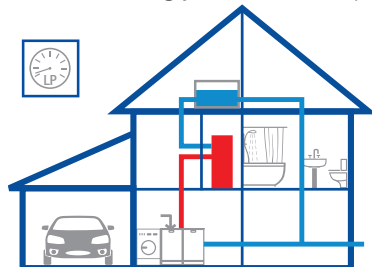

**Recommended solid work surface worktop or SILGRANIT® sink:**

Alternatively with the use of a tap stabilising bracket.

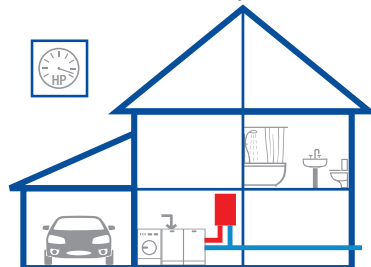

### Tap flow rates explained

Before choosing your BLANCO tap it is essential to check whether you have a high or low pressure water system

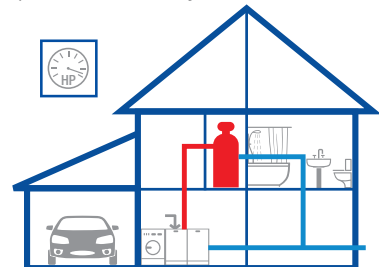

#### Low pressure (Gravity-fed system)

You have a cold water tank in your attic and a hot water tank in your airing cupboard. You should choose taps which state they are suitable for a low pressure system.

#### High pressure (Combi-boiler system)

You have a boiler unit but no hot water cylinder, the boiler unit is usually found in the kitchen and delivers hot water on demand. You should be able to choose from most of our taps.

#### High pressure (Pumped system)

You have a hot water cylinder with an expansion vessel on top (often called Megaflo), usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.

At BLANCO we consider anything 0.3 bar or below as low pressure. Any higher is considered high pressure.

# INSET SINKS

Inset sinks with drainer and tap combinations, including strainer waste and fittings.

Inset sinks are installed from above into a pre-prepared hole in your worktop. It offers the widest choice of sink shapes, sizes and styles.

### Installation formats

It is essential to correctly measure the cabinet width where your sink will be installed. The bowl, or bowls in the case of a multi-bowl sink, will need to fit into this space. Each sink in this brochure will show a cabinet size, and your cabinet width needs to be equal to or greater than the stated measurement.

◀450▶

◀600▶

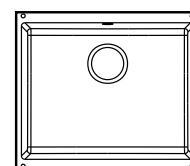

◀900▶

### Bowl configurations

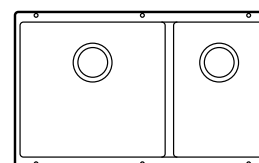

The type and position of your bowl depends on how you intend to use your sink. If you like room to clean large items, a larger single bowl may be best for you, or for a multi-functional purpose, you may prefer the versatility of two separate working bowls.

BLANCO refers to the large bowl when stating if it is a Right Hand Bowl (**RHB**) or Left Hand Bowl (**LHB**).

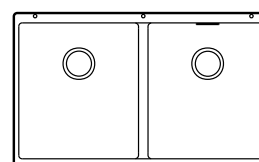

Other sinks are reversible which indicates the bowl/bowls can be positioned on either side. Please check which format suits your kitchen best before ordering.

# CLASSIC Neo Silgranit® Inset

[blanco.co.uk/classicneo](http://blanco.co.uk/classicneo)

Sink: CLASSIC Neo XL 6 S SILGRANIT White  
Tap upgrade: CATRIS-S Chrome

## SILGRANIT® COLOURS

BLANCO has fundamentally modernised the classic sink area. Designers and developers have managed to perfectly combine the successful features of the traditional CLASSIC model with contemporary design. In addition, the extended functionality meets the higher requirements for ergonomics and comfort when working. The result is BLANCO CLASSIC Neo – the evolution of a classic.

The SmartCut chopping board fits safely on the drainer.

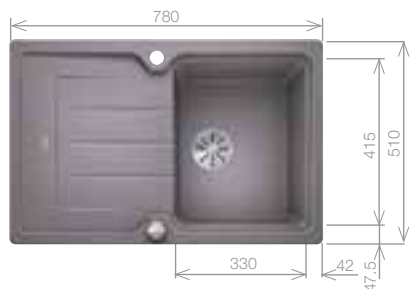

The versatile multifunctional colander in Stainless Steel can be used in the main and the additional bowl.

The colander and the chopping board can be used in parallel to facilitate ergonomic working.

Sink: ETAGON 500-U  
18/10 Stainless Steel  
Tap upgrade: CATRIS-S FLEXO Black Matt

## Three is the magic number

Three working levels, three material options and three installation methods to choose from. The ETAGON system has all the versatility of a large sink centre, yet requires little space. With integrated ledge used in conjunction with the specially developed ETAGON rails, this modern bowl creates a time-saving, space-saving, creative hub in your kitchen.

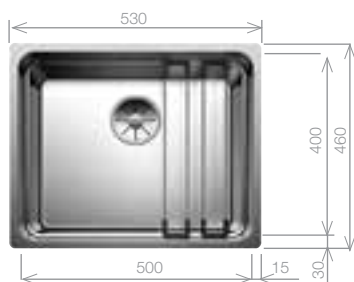

One bowl, two rails, three levels - available as undermount or inset installation.

ETAGON bowls are also available in nine colours of Silgranit® or Ceramic in four colours.

# TAP UPGRADES

Trade up to your ideal mixer tap

All sinks sold in this brochure come with the high quality BLANCO CAMIA® mixer tap included in the price, however, you can make your kitchen more individual by upgrading to one of our extensive range of taps.

## Water Pressure

 BLANCO has a range of taps suitable for low and high pressure systems.  
BLANCO considers taps 0.3 bar and below as low pressure.

## Features

 **Aerator:** Mixes air into the flow of water to give a champagne-like flow. Some taps are fitted with a flow straightener.

 **Pull-Out Spray:** Features a pull-out spray, useful for directional rinsing.

 **Colour options**

 **Dual Flow**

 **Recommended solid work surface worktop or SILGRANIT® sink:**  
Alternatively with the use of a tap stabilising bracket.

## Smart Tap Features

 **Volume**  
An integrated measuring function and touch control make it simply smart.

 **Hot**  
Boiling, filtered, taste-free water in an instant from a titanium tank.

 **Filter**  
A five stage filter ensures the purest of water.

 **Senso**  
Control the water with a wave of your hand, or pot, or pan.

## Tap colour and finish range

# DRINK.HOT UPGRADES

## BLANCO 4-in1 and 3-in-1 boiling water systems.

All sinks sold in this brochure come with the high quality BLANCO CAMIA® mixer tap included in the price, however, you can make your kitchen more individual by upgrading to one of our innovative true-boiling, multi-stage filtered drinking water systems.

### drink.hot EVOL-S Pro 4-in-1

PVD Steel  
456347  
**+£1648 inc VAT**

- 4-in-1 semi-professional mixer tap with flexible spout and two flow settings
- Dispenses defined volume of 100°C filtered boiling or filtered cold water from a separate, insulated spout to ensure safety of use and purity of filtered flow
- Boiling water is true 100°C at the outlet
- Simultaneous use of both spouts when required
- 4 litre capacity hot water tank
- Extremely resistant, taste-neutral hygienic titanium tank
- Supplied with five-stage filtration system
- Supplied with Flowmeter which advises when filter needs to be changed
- High pressure supply only, minimum 1.0 bar

### Why choose BLANCO Evol-S Pro?

A stunning semi-professional mixer tap, in Stainless PVD Steel finish, delivers standard hot and cold water with two flow options via the mixer lever on the right.

The unique EVOL-S rotary control on the left is the real game changer. Select between cold filtered and true-boiling filtered and then set the dial to deliver exactly the amount of water you need. Your selection is delivered through an insulated second spout. Quite simply, it is engineered to be better.

Supplied with  
UK 3-pin plug

## drink.hot TAMPERA 3-in-1

Chrome  
456064  
**+£1098 inc VAT**

PVD Steel  
456364  
**+£1198 inc VAT**

- 3-in-1 Hot Tap with 100°C temperature at the outlet
- 4 litre capacity hot water tank
- Extremely resistant, taste-neutral hygienic titanium tank
- Supplied with five-stage filtration filter
- Supplied with Flowmeter which advises when filter needs to be changed
- High pressure supply only, minimum 1.2 bar

### Why choose BLANCO TAMPERA Hot?

It's quite simple really. Instant, beautifully filtered, 100°C boiling water at the twist of a child-safe lever from an ultra-safe, super-hygienic and taste-free titanium boiler, delivered through an insulated spout that doesn't get hot.

We have developed the TAMPERA Hot to give you all the time, energy and space-saving benefits of a hot tap, but with none of the worry. As you would expect from BLANCO, it's engineered to be better.

### Still not convinced?

- A titanium high-pressure boiler, not a copper or stainless steel tank like many others; makes our system stronger, more hygienic and the water tasteless – important when making tea
- Unlike most other hot taps, the TAMPERA Hot comes with a five-stage filtration system as standard – not as an optional extra – to ensure the purest water and protect the system
- The system includes a fool-proof digital Flowmeter that audibly alerts you when it is time to change the filter, as standard

The five-stage filter system comes with a digital Flowmeter will audibly alert you when the filter cartridge needs replacing.

# DRINK.FILTER UPGRADES

BLANCO filtered drinking water systems.

All sinks sold in this brochure come with the high quality BLANCO CAMIA® mixer tap included in the price, however, you can make your kitchen more individual by upgrading to one of our innovative multi-stage filtered drinking water systems.

**Filter**

**Volume**

## drink.filter EVOL-S Pro

PVD Steel  
456346

**+£848 inc VAT**

- 3-in-1 semi-professional mixer tap with flexible spout and two flow settings
- Dispenses defined volume of filtered cold water from a dedicated spout to ensure purity of filtered flow
- Simultaneous use of both spouts when required
- Supplied with five-stage filtration filter
- Supplied with Flowmeter which advises when filter needs to be changed
- High pressure supply only, minimum 1.0 bar

### Why choose BLANCO Evol-S Pro?

The simple functional beauty of the PVD Steel semi-professional mixer tap with dual spray options, is taken to the next level with the drink.filter EVOL-S Pro.

The separate spout delivers perfectly pure and balanced, five-stage filtered water via a unique measuring function. Select exactly the amount of water you need and tap the button - no waste, no fuss.

### Discover the drink.systems in action at [blanco.co.uk/drinksystems](http://blanco.co.uk/drinksystems)

#### Head to our website to get the full experience.

It's difficult to explain how amazing the EVOL-S Pro and the rest of the drink.systems range are with a few words and images on the pages of a brochure. Watch some great videos of our drink.system taps in action on our website. Scan the QR code (right) or type the web address above into your browser.

Also available online, on the same link, is the drink.systems brochure. Take an in depth look at the specification-busting technology, clever functions and safety features that put the BLANCO boiling and filtered water taps streets ahead of the competition.

## Drink. Prep. Clean.

The BLANCO UNIT is everything you need, all in one place. Sink, tap and integrated organisation or waste management. All seamlessly combined for a stunning, creative kitchen hub at the heart of your home.

Visit: [blanco.co.uk/blancounit](https://blanco.co.uk/blancounit)

The sink space is the busiest area of the modern kitchen, on average we spend 60% of our time in the kitchen, at the sink. Making drinks, preparing food, washing and cleaning up afterwards. It's little wonder then, that the sink, tap and bin are the most-used kitchen items.

The BLANCO UNIT will save you time by adding practicality and simplicity to daily use of the sink area. Our material and design innovations will ensure everything looks and works beautifully, while our depth of range means we have the ideal combination of products to suit your style, and lifestyle.

**Sink:** ETAGON 500-U, Silgranit Black

**Tap upgrade:** drink.hot EVOL-S Pro 4-in-1

# BLANCO FOOD WASTE DISPOSERS

## A SMART ADDITION TO YOUR BLANCO UNIT.

The addition of a BLANCO Food Waste Disposer to your BLANCO UNIT, creates a time saving kitchen hub that simply makes life easier.

Using a FWD to grind down and flush away unwanted leftover food waste has a wealth of benefits to you, your home and to the environment.

- Reduces mess
- Improves kitchen hygiene
- No odours from stored food waste
- Added food prep convenience
- Saves time cleaning up
- Safe and easy to use

The environment benefits because less food waste ends up in landfill sites, releasing harmful methane and other greenhouse gases as it rots. Instead, ground down food waste is treated at water treatment plants, it can be converted into soil conditioner for agriculture or biogas that can be turned into clean energy.

Simply turn on the cold tap, switch on the FWD and feed your food into the disposer. The waste is quickly and easily ground into fine particles and flushed away in your regular waste system.

**NEW**

BLANCO food waste disposers are new to our range. Available April 2022.
